

# Product End of Life Instructions

**TeSys F series three pole contactor, 780A, 220V, 50/60Hz**

**TeSys F**

## End of Life Instructions

| Recommendation   | Number on drawing | Component / Material                                 | Weight (in g) | Comment |
|------------------|-------------------|------------------------------------------------------|---------------|---------|
| To be depolluted | 1, 2, 5           | Plastic with brominated flame retardants             | 127           |         |
| To be depolluted | 3, 4              | Electronic Board (Communication) > 10cm <sup>2</sup> | 20            |         |

## Product description

|                                       |                                                                                                                                                            |

| Legal information                                        | This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE). The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product. |                                                                                                                                                                                                                                                                                                                |
| In case of special transportation: transportation method | No                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                                                                |
| Recyclability potential                                  | 93%                                                                                                                                                                                                                                                                                                                                                                                                                                    | Recyclability rate has been calculated based on REEECY'LAB tool developed by Ecosystem, for components/materials not covered by the tool, data from the "ECO' DEEE recyclability and recoverability calculation method" was taken. If no data was found a conservative assumption was used (0% recyclability). |
