

PRODUCT DATASHEET

Type: KST050R
Art. Nr.: 34152

Short description

Pew heater, connection right, 200W, 0.5m, 230V

Product Description

The KST pew heaters are dark radiators and are used for local heating of churches. The heat is emitted almost exclusively to the front through special ventilation slots. Particularly suitable for churches that are only visited once a week. The electrical connection is made via appliance plugs, the factory through-wiring simplifies installation. The devices have integrated overheating protection with automatic restart, break-proof special heating element without glowing heating coil, angled plug included in the scope of delivery. Protection class: IP 21, residual current circuit breaker, test mark: ÖVE, CE compliant, galvanized sheet steel, color: fawn RAL 8007, connection: right.

ETIM characteristics

Model	Church pew heating	Voltage	230 230 Volt
Mounting method	Surface mounting	Number of heating levels	1
Power step OFF	✗	Min. heating power	200 Watt
Mounting over cradle	✗	Max. heating power	200 Watt
Degree of protection (IP)	IP21	Min. mounting height	320 Metre
Colour	Other	Max. mounting height	800 Metre
Compatible with Apple HomeKit	✗	Height	60 Millimetre
Compatible with Google Assistant	✗	Width	500 Millimetre
Compatible with Amazon Alexa	✗	Depth	185 Millimetre
IFTTT support available	✗	RAL-number	8003
