

PRODUCT DATASHEET

Type: Satheat-120
Art. Nr.: 35863

Short description

Satellite dish heater 200W, for dish 120cm

Product Description

SATHEAT is a specially developed heating element for keeping parabolic antennas free of snow and ice in private and public areas. The heating element is available in 4 standard sizes and has a built-in mechanical thermostat, which switches on below °C and only switches off again when the surface temperature reaches °C. The heating element is 100% UV resistant. The heating element is 100 % UV-resistant. An additional heating cable guarantees a snow-free receiver arm. Fastening is carried out on site, either mechanically or with adhesive. Custom sizes are also available on request. Color: grey, CE compliant, connection cable: 3 m, 2x1 mm² protective braiding, UV-resistant.

ETIM characteristics

With thermostat	✓	Diameter	120 Centimetre
Heating LNB support	✓	Surface	11304 Square centimetre
Mounting method	Glue	Power	200 Watt
		Voltage	230 Volt
