

PRODUCT DATASHEET

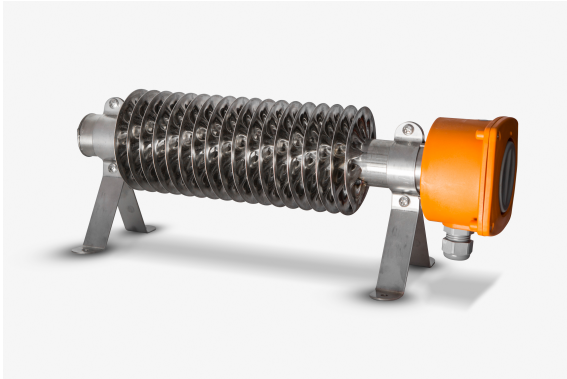

Type: ET-RDA-2000
Art. Nr.: 40538

9120061394168

Short description

Finned tube heater with controls, 2kW, IP66/67, 230V

Product Description

For heating damp rooms, e.g. greenhouses, protecting sensitive systems from frost, heating in harsh operating environments, e.g. pumping stations, crane cabins, construction trailers and foremen's offices in factory halls. Optimum heat dissipation thanks to the large surface area of the folding fins. The built-in heating element made of technical ceramics ensures good heat distribution. Robust radiator made of stainless steel, material 1.4512, all parts rustproof, all mounting points dustproof and waterproof, for wall and floor mounting. With infinitely variable control 5-30 °C, surface temperature: max. 185 °C, CE compliant, test mark: KEMA-KEUR, protection class: IP 66/67, connection: hard wiring or plug.

ETIM characteristics

Automatic temperature controller	✓	Power	2000 Watt
Low surface temperature	✗	Rib diameter	120 Millimetre
Universal connectable	✓	Voltage	230 230 Volt
Degree of protection (IP)	IP66/IP67	Height	184 Millimetre
Explosion-proof	✗	Width	120 Millimetre
For Ex-zone gas	None	Length	1100 Millimetre
For Ex-zone dust	None		
Temperature class according to directive 94/9/EC	None
