

PRODUCT DATASHEET

Type: LAVALITE-GL-240-PW
Art. Nr.: 40903

9120105410762

Short description

Infrared heating panel thin, glass, pure white, 50x63cm, 240W, 230V

**Product Description**

The extra-thin LAVA LITE infrared heater impresses with its efficiency. Despite the 6 mm thick safety glass, the infrared heater including the mounting rails is only 33 mm deep, making it ideal for wall mounting - even in confined spaces such as corridors or stairwells. The glass surface is a very good radiation emitter and ensures optimum heat radiation to the front. Thanks to the frameless design and extremely shallow depth, the infrared heater blends harmoniously into the room. The glass surface is available in pure white and mirror finish. Outputs: 240, 450, 700 and 900 W, mounting depth: 33 mm, surface temperature: approx. 95 °C, vertical and horizontal wall mounting possible, protection rating: IP X4, surfaces: 6 mm toughened safety glass, plug connection cable: 1 m, CE-compliant.

ETIM characteristics

Type of IR radiation	IR-C	Power consumption	240 Watt
Mounting method	Surface mounting	Supply voltage	230 230 Volt
Mounting direction	Horizontal/vertical	Frequency supply voltage	50 50 Hertz
Suitable for ceiling mounting	✗	Max. surface temperature	95 Degrees celsius
Degree of protection (IP)	IP55	Height	630 Millimetre
Colour	White	Width	500 Millimetre
With imprint	✗	Depth	33 Millimetre
With room temperature controller	✗	RAL-number	0
With mounting material	✓	Colour temperature	0 0 Kelvin
With framework	✗		
Material framework	Other		
Colour framework	Other		
Surface treatment	Other		
Surface structure front-side panel	Smooth		
With lighting cove	✗		
Dimmable	✗		
Light outlet	Direct
