

PRODUCT DATASHEET

Type: ET-AQUA-WHE-15
Art. Nr.: 41106

9120105411936

Short description

Electric instantaneous water heater with rotary dial, 15kW

Product Description

ETHERMA AQUA WHE is an electronic instantaneous water heater and is ideal for heating water in the bathroom. A water flow of more than 2.5 l/min automatically switches on the heating of the instantaneous water heater. The control circuit selects the appropriate heat output from the instantaneous water heater depending on the water withdrawal, desired water temperature and water flow temperature. Output: up to 15 or 24 kW, temperature 30-60 °C, water pressure: 1-10 bar, for wall mounting, color: white, protection class: IP 25, EEK: A, water connection: Gz 1/2, 400 V.

ETIM characteristics

Material pressure tank	Plastic	Nominal content	0 Litre
Suitable for KNX	✗	Nominal power	15 Kilowatt
Operation	Manual	Nominal voltage 1	400 Volt
Temperature indication	None	Nominal voltage 2	400 Volt
With display	✗	Connected load	9 15 Kilowatt
Mounting method	Over sink/under sink	Outer pipe diameter cold tap water	12.7 Millimetre
Power control	4 steps	Outer pipe diameter hot tap water	12.7 Millimetre
Heating system	Tube heating element	Height	440 Millimetre
Safety breaker	Pressure switch-off	Width	245 Millimetre
Degree of protection (IP)	IP25	Depth	126 Millimetre
Cold tap water connection	Internal thread	Weight	4.85 Kilogram
Nominal diameter cold tap water	1/2 inch (15)		
Hot tap water connection	Internal thread		
Nominal diameter hot tap water	1/2 inch (15)		
Suitable for plastic tube	✓		
Suitable for preheated water	✓		
Type of regulation	Electronic		
With tap/mixer	✗
