

PRODUCT DATASHEET

Type: ET-AQUA-WHL-24
Art. Nr.: 41110

9120105411974

Short description

Electric instantaneous water heater with display, 24kW

Product Description

ETHERMA AQUA WHL is an electronic instantaneous water heater with LCD display and is ideal for heating water in the bathroom. A water flow of over 2.5 l/min automatically activates the heating of the instantaneous water heater. The control circuit selects the appropriate heat output of the instantaneous water heater depending on the water withdrawal, desired water temperature and water flow temperature. The inlet and outlet temperature, flow rate and power can be selected to the exact degree using a simple rotary knob. Output: up to 15 or 24 kW, temperature 30-60 °C, water pressure: 1-10 bar, for wall mounting, color: white, protection class: IP 25, EEK: A, water connection: Gz 1/2, 400 V.

ETIM characteristics

Material pressure tank	Plastic	Nominal content	0 Litre
Suitable for KNX	✗	Max. operating pressure	10 Bar
Operation	Manual	Nominal power	24 Kilowatt
Temperature indication	None	Nominal voltage 1	400 Volt
With display	✗	Nominal voltage 2	400 Volt
Mounting method	Over sink/under sink	Connected load	17 24 Kilowatt
Power control	4 steps	Outer pipe diameter cold tap water	12.7 Millimetre
Heating system	Tube heating element	Outer pipe diameter hot tap water	12.7 Millimetre
Safety breaker	Electronic	Height	440 Millimetre
Degree of protection (IP)	IP25	Width	245 Millimetre
Cold tap water connection	Internal thread	Depth	126 Millimetre
Nominal diameter cold tap water	1/2 inch (15)	Weight	4.85 Kilogram
Hot tap water connection	Internal thread		
Nominal diameter hot tap water	1/2 inch (15)		
Suitable for plastic tube	✓		
Suitable for preheated water	✓		
Type of regulation	Electronic		
With tap/mixer	✗		
Energy efficiency class according to 812/2013/EU	A
