

PRODUCT DATASHEET

Type: SM-HP-2000-NA
Art. Nr.: 9100880

Short description

SOLAMAGIC ECO+ HP infrared heater, 2 kW, nano-anthracite

Product Description

The SOLAMAGIC ECO+ HP infrared heaters are characterized by optimum performance, very simple installation and an efficient reflector. The housing is made of high-quality aluminum. The device is equipped with an ultra-low-glare Solastar-HP tube, which, in addition to high efficiency, also has a very long service life (min. 5000 operating hours). In particular, short-wave infrared heaters can be used very flexibly outdoors and ensure a constant, pleasant heat zone. Thanks to the respective wavelength, heat penetrates the air in a particularly efficient manner, and a considerable saving in operating costs can be guaranteed in comparison with gas and quartz emitters. Colors: white, titanium, nano-anthracite, special colors on request, practical mounting accessories, high efficiency, no heat-up phase, dimmable via external control, power: 1400 or 2000 W, protection type: IP 24, quality mark: VDE, CE-compliant.

ETIM characteristics

Model	Ceiling-/wall emitter	Voltage	230 230 Volt
Mounting method	Surface mounting	Number of heating levels	1
Power step OFF	✗	Min. heating power	2000 Watt
Mounting over cradle	✗	Max. heating power	2000 Watt
Degree of protection (IP)	IP24	Min. mounting height	2 Metre
Colour	Grey	Max. mounting height	2.5 Metre
Compatible with Apple HomeKit	✗	Height	230 Millimetre
Compatible with Google Assistant	✗	Width	483 Millimetre
Compatible with Amazon Alexa	✗	Depth	176 Millimetre
IFTTT support available	✗	RAL-number	0
