Cable assembly WINSTA® MIDI 3-pole

Color: ■ red

The WINSTA® MIDI cable assembly with protection type IP20 provides the foundation for assembly of fine-stranded and solid conductors. WAGO pluggable installation connectors are used when requirements repeat or are distributed on a defined pattern, for example for installing grid lighting or flushmount lighting. For greater protection in electrical installations, the pluggable installation connector is provided with mechanical protection against mismating. The pluggable installation connector is protected in accordance with protection type IP20 (When mated: IP2xC (These compact connectors are not designed for use in open, easily accessible areas!)). That results in the fact that users' fingers will never come into contact with energised elements. WINSTA® MIDI pluggable installation connectors with P coding allow proper implementation of an uninterruptible power supply (UPS). The WINSTA® MIDI Pluggable Connection System with Push-in CAGE CLAMP® spring pressure connection technology facilitates precise electrification. Due to the built-in test slot, connections can be checked even when they are plugged in. That saves time and reduces installation labor and costs. This product meets all the relevant fire protection requirements of fire class E; as a result it can be used in areas where fire safety is relevant.

Fast, secure pluggable connections - cable assemblies from WAGO

A socket and a plug are available. The WINSTA® Pluggable Connection System is ideally tailored to the very strict requirements of building installation. It makes electrical installation pluggable, and therefore more efficient, more reliable, and error-free. Use of this pre-assembled system reduces time spent on assembly and errors during installation at the construction site. Choose durability and quality – with marking from WAGO makes the installation of electrical components substantially easier.

- effective protection against mismating
- simple circuits
- with P coding for use in implementing an uninterruptible power supply
- · custom-engineered solutions
- · convenient installation and commissioning

Notes	
Note	Cables with a different fire class can be found in the eShop.

Physical data

Marking Potential marking

Mating force of a plug-in connection

Connection data			
Total number of potentials	3	Connection 1	
PE function Prec	Preceding PE contact	Pole number	3
		Sheathed cable diameter	7.4 9.4 mm
		Wire cross-section	1.5 mm²
		Connection type	Socket - Plug

Pin spacing	10 mm / 0.394 inches
Width	27 mm / 1.063 inches
Height	12.9 mm / 0.508 inches
Total length	8 m
Mechanical data	
Use	EDV (UPS)
Coding	P
Variable coding	

Retention force of a plug-in connection Unmating force of a plug-in connection when unlocked: approx. 20 ... 70 N (depending on pole number) 200, without resistive load Number of mating cycles Connection type Socket - Plug

LN

Type of pre-assembled cable Interconnecting cable Cable type H05VV-F 3G1.5

Protection type IP20; When mated: IP2xC (These compact connectors are not designed for use in open,

easily accessible areas!)

when locked: > 80N

approx. 20 ... 70 N (depending on pole number)

Plug-in connection	
Mismating protection	Yes
Note on mismating protection	All WINSTA® components are 100% protected against mismating when: a.) plugging different numbers of poles b.) plugging while rotated 180 c.) plugging while laterally staggered d.) plugging one pole
Locking lever	Can be retrofitted
Locking of plug-in connection	Locking lever
Note on locking system	All connectors for mounted installations (snap-in versions for lighting fixtures or devices, all types of PCB and distribution connectors) are factory-equipped with locking levers to ensure plugs and sockets are securely locked. Additional locking levers are only required for flying leads (plug/socket).

Material data	
Note (material data)	Information on material specifications can be found here
Color	red
Insulation material (main housing)	Polyamide (PA66)
Fire class per EN 50575	E_ca
Contact material	Copper or copper alloy; surface-treated
Contact Plating	Tin
Fire load	239.435 MJ
Connector color	red
Strain relief color	black
Printing color of strain relief	white
