Dimensions in mm

Cable assembly WINSTA® MIDI with protection type IP20

For signal and power transmission: The *WINSTA*® MIDI cable assembly P coding. The pluggable installation connectors with spring pressure connection technology function completely without screw connections. They allow resource-efficient, error-free installation in numerous possible uses. The mechanical coding and color coding of the pluggable installation connector ensure error-free installation of the individual components – including protection against mismating. The pluggable installation connector offers touch-proof protection with live components in accordance with protection type IP20 (When mated: IP2xC (These compact connectors are not designed for use in open, easily accessible areas!)). UPS applications in information technology (IT) mostly use the red *WINSTA*® MIDI pluggable installation connectors with P coding. This pluggable installation connector can be used for electrical currents up to 20 A. Thus the product is especially suitable for high power loads. Our *WINSTA*® MIDI product line offers maximum flexibility for the installation. Through its Push-in CAGE CLAMP® spring pressure connection technology, it ensures time-saving, error-free installation and offers flexibility and customization for meeting various installation requirements. This product meets all the mandatory fire protection requirements of fire class E; thus it can be used in domains where fire safety is relevant. In the production of this cable assembly, we eliminated the use of halogen. That is an important contribution to environmental protection.

Fast, secure pluggable connections - cable assemblies from WAGO

The cable is pre-assembled with a socket and a plug. The WINSTA® Pluggable Connection System is perfectly tailored to the strict requirements of building installation. It makes electrical installation pluggable, and consequently faster, more reliable, and error-free. Use of this pre-assembled system reduces time spent on assembly and installation errors at the construction site. Take advantage of the pluggable version of our maintenance-free spring pressure connection technology too! Plan your installation with with fire class E from WAGO.

- · effective protection against mismating
- · pre-assembled versions
- with P coding for fault-free power supply
- · ready to install and use immediately
- · rapid, structured electrical installation
