#### Cable assembly WINSTA® MIDI 5-pole

The WINSTA® MIDI cable assembly 5-pole supports fast, reliable installation. WAGO pluggable installation connectors can be used when criteria repeat or are distributed on a specific pattern, for example for installing grid lighting or flush-mount lighting. The coding options reduce installation errors, allowing fast, maintenance-free wiring of all components. The pluggable installation connector offers protection against contact with live components in accordance with protection type IP20 (When mated: IP2xC (These compact connectors are not designed for use in open, easily accessible areas!)). Controlled lighting, as used in the DALI standard, for example, is the primary domain of use of WINSTA® MIDI pluggable installation connectors with I coding. WINSTA® MIDI with Push-in CAGE CLAMP® spring pressure connection technology is used in can be found in a variety of projects you can use for quick, easy, flexible, and secure installation. Anyone who needs to worry about technical safety requirements related to fire protection for electrical installation should be able to rely on the quality of the components. Our product meets the strict safety standards of fire class B2. In the production of this cable assembly, halogens were deliberately omitted. This is an important contribution to climate protection.

Pluggable connections instead of screw connections - cable assemblies from WAGO

A plug and a free end are provided. The WINSTA® Pluggable Connection System allows pluggable electrical installation. This significantly reduces the need for servicing and lowers costs. Now you can also lower installation costs without compromising safety and quality: with protection type IP20 eliminates the need for servicing and prevents unnecessary downtime.

- pluggable installation connectors with protection against mismating
- for automation controllers
- with I coding for use in the automation of buildings (lighting control)
- · flexible installation to save space
- · fast, secure installation
