Cable assembly WINSTA® MINI 4-pole

Color: ■ gray

For signal and power transmission: The WINSTA® MINI cable assembly B coding. WAGO pluggable installation connectors are used when specifications repeat or are distributed on a specified grid, for example for installing grid lighting or flush-mount lighting. The coding options reduce installation errors, allowing fast, maintenance-free wiring of all components. Solutions like the WINSTA® MINI pluggable installation connectors with B coding are appropriate for process control, such as for lighting or in data networks. WINSTA® MINI satisfies the demand for miniaturisation. Our smallest pluggable connection system is primarily suited for lights, for instance, since as a result of LED technology; due to complex systems, these offer less and less space for the connection technology. According to the European CPR, the fire class of the cables used for construction is essential for the safety of buildings as well. For buildings with medium-level safety requirements, cable assemblies with fire class E are suitable.

Pluggable connections instead of screw connections - cable assemblies from WAGO

The cable is pre-assembled with a socket and a plug. The WINSTA® Pluggable Connection System allows pluggable electrical installation. This significantly reduces the need for servicing and lowers costs. Choose quality and durability – with marking from WAGO makes the electrical installation of electrical components noticeably easier.

- pluggable installation connectors with protection against mismating
- · easy tool-free operation, a wide range of coding options
- · for automation controllers
- · ready for immediate use

Rated current

quick replacement of defective units during ongoing operation

General information

Note on contact resistance

approx. 1 m Ω of contact resistance approx. 0.25 m Ω contact transition plug/ socket

| Connection data | | | |
|----------------------------|---|--------------------|---------------|
| Total number of potentials | 4 | Connection 1 | |
| | | Pole number | 4 |
| | | Wire cross-section | 1.5 mm² |
| | | Connection type | Socket - Plug |

| Physical data | |
|---------------|------------------------|
| Pin spacing | 4.4 mm / 0.173 inches |
| Width | 23.2 mm / 0.913 inches |
| Height | 16 mm / 0.63 inches |
| Total length | 4 m |

| Mechanical data | | |
|---|---|--|
| | | |
| Use | Control technology | |
| Coding | В | |
| Variable coding | No | |
| Marking | 1234 | |
| Potential marking | 1234 | |
| Mating force of a plug-in connection | approx. 20 70 N (depending on pole number) | |
| Retention force of a plug-in connection | when locked: > 80N | |
| Unmating force of a plug-in connection | when unlocked: approx. 20 70 N (depending on pole number) | |
| Number of mating cycles | 200, without resistive load | |
| Connection type | Socket - Plug | |
| Type of pre-assembled cable | Interconnecting cable | |
| Cable type | Control line 4x1.5 | |
| Protection type | IP20; IP40 when mated | |

| Plug-in connection | |
|-------------------------------|--|
| Mismating protection | Yes |
| Note on mismating protection | All WINSTA® components are 100% protected against mismating when: a.) plugging different numbers of poles b.) plugging while rotated 180 c.) plugging while laterally staggered d.) plugging one pole |
| Locking lever | Can be retrofitted |
| Locking of plug-in connection | Locking lever |
| Note on locking system | All connectors for mounted installations (snap-in versions for lighting fixtures or devices, all types of PCB and distribution connectors) are factory-equipped with locking levers to ensure plugs and sockets are securely locked. Additional locking levers are only required for flying leads (plug/socket). |
