Handsender Easyclick

**EnOcean Easyclick miniature handheld,  
black, 4 channels**

The Easyclick mini handheld transmitter is designed to switch and dim lights, open and close shutters, and adjust blinds. It can operate batteryless at any location within the range. For instance, homeowners can open the garage door and activate the welcome scene. The small and ergonomic mini handheld transmitter in the sealed housing features four buttons for remote control. Two-button operation makes use of the pairs A/B and C/D.

Housing colour: black

Button colour: grey

Weight: 50 g

Measurements: W 50 mm x L 82 mm x H 21 mm.
