FURNISH NON-RESIDENTIAL AND
HOUSING PROJECTS WITH RELIABLE
AND TIMELESS LIGHTING

The spray-proof and impact-resistant surface-mounted luminaires from the Prolumia Rockdisc III series meet the lighting needs in outdoor areas in non-residential and housing construction. Both normal and semi-shielded versions are optionally available with a microwave sensor, large sizes also with emergency function. Simply set the desired color temperature and light output by means of DIP switches. In addition, luminaires with and without sensor can effortlessly be configured as master/slave.
