

SG BODY COMPACT SERIES

SG BODY COMPACT is the new family of Datalogic Automation Type 2 and Type 4 safety light curtains for body protection and access control able to rapidly and effectively solve all the industrial safety applications mainly in automotive field, packaging and material handling.

SG BODY COMPACT perfectly combines vanguard technology, extremely high performances and Datalogic distinctive **SAFEasy™** concept.

2, 3 and 4 beams models with controlled height of 500, 800, 900 and 1200mm all reaching 50m operating distance are available.

All SG BODY "COMPACT" models are then provided in 2 different versions:

- **BASE** version represents the ideal product for all applications where Muting function is not required but EDM and MANUAL/AUTOMATIC restart functions are basic requirements for very standard applications;
- **MUTING** version series satisfy all applications that require the Muting function, thanks to the use of preassembled, pre-cabled and pre-aligned Muting sensors. Polarized retroreflex or through beam models with 'T' integrated Muting sensors for two-way Muting, 'L' integrated Muting sensors for one-way and linear versions without integrated Muting sensors.

HIGHLIGHTS

- Up to 50mt operating distance
- 2,3,4 beams 500, 800, 900 and 1200mm controlled height
- Two versions : BASE and MUTING
- No programming required : integrated safety functions WIRE or DIP SWITCH selectable
- Integrated Muting with all advanced features associated to like 'L' or 'T' configurations, EDM, Manual/ Automatic RESTART selectable
- Integrated LED MUTING lamp;
- Same profile of SE series;
- Compatible with SE series;
- TOP-BOTTOM Rotating brackets for easier alignment
- Type 2 models SIL 2 and PL d and Type 4 models SIL 3 PL e

APPLICATIONS

Extreme reliability and simplicity make the SG BODY COMPACT safety light curtains the ideal solution for the following applications:

- Automatic machines
- Robots
- Automatic assembling lines
- Palletizers and Depalletizers

SAFETY

SETTINGS

A slot located in the front side of the RX unit, that can be easily opened using a screwdriver, simplifies the access to the internal dip-switches used for enabling/configuring integrated functions

BASE VERSION			
Switch	Function	ON	OFF
1,5	-	-	-
2,6	-	-	-
3,7	EDM	Deactivated	Activated
4,8	Restart	Automatic	Manual

MUTING VERSION			
Switch	Function	ON	OFF
1,5	Muting time-out	10 min.	∞
2,6	Muting	T config. (4 beams)	L config. (2 beams)
3,7	EDM	Deactivated	Activated
4,8	Restart	Automatic	Manual

INDICATORS

The operator can check the operating condition of the light curtains through four LEDs positioned on the receiving unit and two LEDs on the emitting unit.

MUTING ARMS

SG BODY COMPACT series light curtains are available in T models for bidirectional Muting and L models for unidirectional Muting with Muting arms provided of retroreflex sensors; also linear models without integrated Muting sensors are available. These models can be converted in T models and L models by means of Muting arms accessories.

Muting arms are available in 2 versions: with retroreflex sensors and with emitter-receiver sensors. SG BODY COMPACT light curtains are designed, on both emitter and receiver, for mounting of both tipology of Muting arms.

The following figures show, respectively, the dimensions of single active arms, of single passive arms, and the corresponding fixing bracket stand alone.
