

Product name

Stapaflex-FPR

Item number

30011

Manufacturer

ETHERMA

Product description

Installation hose, Stapaflex, asphalt installation, DN 20

Armored installation hose for laying sensors and connecting lines in asphalt pavements. The hose is resistant to the high temperatures during the application of asphalt pavement.

Technical Details

Material	Aluminium	Inner diameter	16 Millimetre
Material quality	Other	Outer diameter	20 Millimetre
Surface protection	Untreated	Operating temperature	220 220 Degrees celsius
Quality of surface coating	Other		
Surface polished	No		
Surface brushed	No		
Model	Pliable corrugated		
Connection 1	Other		
Connection 2	Other		
Colour	Grey		
Flush-mounted installation	Yes		
Surface mounting	No		
Suitable for concrete installation	Yes		
Machine and systems installation	Yes		
Suitable for underfloor installation (bitumen, hot asphalt)	Yes		
Suitable for underfloor installation (screed)	Yes		
Outdoor installation	Yes		
Installation on wood	Yes		
Suitable for hollow wall installation	Yes		
Suitable for underground installation	Yes		
Compressive strength class	Medium (class 3, 750 N)
