**Product description**

Double thermostat, temperature range: -15 to °C, 16A, IP 65

Bimetallic double thermostat for easy control of gutter heating systems. Depending on ice formation, 2 temperature points can be set. But only for systems smaller than 20 m; for larger systems we recommend humidity and temperature dependent control. Positive range: 0 to 15 °C, negative range: -15 to 0 °C, switching current: 16 A, mounting: surface-mounted, protection rating: IP 65, CE marking.
