Product description

Heating mat under laminate, 10.0m², 50x2000cm, 1200W, 230V

The Laminotherm LM heating mat is a factory-made heating mat for the temperature control of parquet, laminate and cork floors, as well as for heating well-insulated rooms. The heating system is laid as floating. The reinforced aluminium mesh guarantees optimal heat distribution and prevents the formation of hot spots. The heating mat has a low magnetic field due to the 1.3 mm thin structure and, thanks to the dipole design, very easy to install. The Laminotherm heating mat is available with a power of 120 W/m². Nominal temperature: 90 °C, protective measure: FI, protective circuit 30 mA, insulation heating conductor: PFA, aluminium mesh thickness: 1 mm, system design: according to IEC 60335, CE marking, certification marking: SEMCO, protection rating: IP X7, for use in dry rooms, connection cable: 5 m, 2x1.0 mm² protective braid.
