

Product name

BHK-53/119

Item number

40542

Manufacturer

ETHERMA

Product description

Electric bathroom heater, white, 600W, 230V

Bathroom heater BHK is designed for heating bathrooms and towels. The radiator has an attractive design, without visible welding, and it is frost-proof up to -20 °C and filled with heat transfer fluid. The thermostat regulates the surface of the radiator in 2 stages (45 °C and 60 °C). The device has an on/off switch with LED indicator and a 2-hour timer function. The BHK-TH radio control is optionally available for weekly and daily programs, as well as temperature drop detection - making it compliant with eco-design guidelines. Device depth: 85 mm, protection rating: IP X5 protection rating I, colour: traffic white RAL 9016, plug connection cable: 1.5 m right, CE marking.

Technical Details

Radiator design	Straight	Number of tubes	22
Type of collector	Other	Max. input power heating	600 Watt
With console	No	Max. input power fans	0 Watt
Swivelling	No	Supply voltage	230 230 Volt
Shape of radiation tube	Rectangular	Frequency supply voltage	50 50 Hertz
Material	Steel	Width	530 Millimetre
With fan	No	Height	1190 Millimetre
Position control panel	Other	Depth	85 Millimetre
Suitable for wireless remote control	Yes	Weight	12 Kilogram
With remote control	No		
Power control	Electronic		
With time switch clock	No		
Colour	White		
Degree of gloss	Glossy		
Degree of protection (IP)	IPX4		
Protection class	I		
Digital indication	No		
Suitable for bus connection	No		
Programmable	No		
Adaptive (self-learning)	No		
Consumption indication	No		
Operation by app	No		
With mounting material	Yes		
Type approval according to BBR/EKS	No
