

Product name

eTRACE-10-PRO

Item number

41243

Manufacturer

ETHERMA

Product description

Self-regulating heating tape for pipes, 10W/m, up to 65°C

The self-regulating heating tape eTRACE-10-PRO is suitable for use in industry and building services. Applications range from frost protection to temperature maintenance on pipes and vessels. The supply conductors are nickel-plated copper. In addition, the heating tape is moisture-proof and UV-resistant. It can be easily cut to the desired length and used immediately. Rated power 10 W/m at 10 °C, max ambient temperature: 65 °C off and 65 °C on, min. installation temperature: -45 °C, min. bending radius: 25 mm, certification marking: NEMKO, CE

Technical Details

Cable type	Self-limiting parallel	Max. hold temperature	65 Degrees celsius
Screening	Braiding	Heating capacity	10 Watt per metre
Colour	Black	Nominal voltage	230 Volt
Application	Pipe heating	Diameter	0 Millimetre
		Height	5.5 Millimetre
		Width	8.3 Millimetre
		Length	1 Metre
