

Product name

ET-AQUA-WHM-5

Item number

41105

Manufacturer

ETHERMA

Product description

Hydraulic instantaneous water heater, 5.5kW, 230V

The hydraulic instantaneous water heater ET-AQUA-WHM, has a pressure-resistant design and is suitable for processing hot water quickly for sinks with limited water volume. Due to a built-in differential pressure switch, the device automatically switches on the heating mode. Water pressure: 1.2 to 6.0 bar, for wall mounting, Colour: White, Protection rating: IP 24, Water connection: Gz 3/8", 230 V.

Technical Details

Material pressure tank	Plastic	Nominal content	1.7 Litre
Suitable for KNX	No	Max. allowable operating pressure	6 Bar
Operation	Manual	Nominal power	5 Kilowatt
Temperature indication	None	Nominal voltage 1	230 Volt
With display	No	Nominal voltage 2	230 Volt
Mounting method	Over sink/under sink	Connected load	5 5 Kilowatt
Power control	Electronic	Outer pipe diameter cold tap water	12 Millimetre
Heating system	Tube heating element	Outer pipe diameter hot tap water	12 Millimetre
Safety breaker	Pressure switch-off	Height	225 Millimetre
Degree of protection (IP)	IP24	Width	168 Millimetre
Cold tap water connection	External thread	Depth	76 Millimetre
Nominal diameter cold tap water	3/8 inch (10)	Weight	1.2 Kilogram
Hot tap water connection	External thread		
Nominal diameter hot tap water	3/8 inch (10)		
Suitable for plastic tube	Yes		
Suitable for preheated water	Yes		
Type of regulation	Hydraulic		
With tap/mixer	No		
Energy efficiency class	A
