

Product name

ET-AQUA-WHE-15

Item number

41106

Manufacturer

ETHERMA

Product description

Electric instantaneous water heater with rotary dial, 15kW

ETHERMA AQUA WHE is an electric instantaneous water heater ideal for heating water in the bathroom. A water flow of more than 2.5 L/min automatically causes the instantaneous water heater to be switched on. The control circuit selects the appropriate heat output from the instantaneous water heater depending on the water amount, desired water temperature and water supply temperature. Power: up to 15 or 24 kW, temperature: 30-60 °C, water pressure: 1-10 bar, for wall mounting, colour: white, protection rating: IP 25, EEK: A, water connection: Gz 1/2", 400 V.

Technical Details

Material pressure tank	Plastic	Nominal content	0 Litre
Suitable for KNX	No	Max. allowable operating pressure	10 Bar
Operation	Manual	Nominal power	15 Kilowatt
Temperature indication	None	Nominal voltage 1	400 Volt
With display	No	Nominal voltage 2	400 Volt
Mounting method	Over sink/under sink	Connected load	9 15 Kilowatt
Power control	4 steps	Outer pipe diameter cold tap water	12.7 Millimetre
Heating system	Tube heating element	Outer pipe diameter hot tap water	12.7 Millimetre
Safety breaker	Pressure switch-off	Height	440 Millimetre
Degree of protection (IP)	IP25	Width	245 Millimetre
Cold tap water connection	Internal thread	Depth	126 Millimetre
Nominal diameter cold tap water	1/2 inch (15)	Weight	4.9 Kilogram
Hot tap water connection	Internal thread		
Nominal diameter hot tap water	1/2 inch (15)		
Suitable for plastic tube	Yes		
Suitable for preheated water	Yes		
Type of regulation	Electronic		
With tap/mixer	No		
Energy efficiency class	A
