

Product name

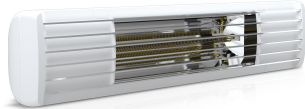

ET-EXO-PRO-2000-W

Item number

45000

Manufacturer

ETHERMA

Product description

ETHERMA EXO PRO infrared heater, 2kW, white, IP65

The new premium infrared heater ETHERMA EXO PRO has been specially developed for outdoor applications such as terraces, balconies, restaurants or huts. Due to its wavelength, the highly efficient, short-wave infrared heat radiation penetrates the air particularly efficiently and quickly. It provides a noticeable feeling of heat fast, guaranteeing huge savings in operating costs compared to gas radiators or gas patio heaters. Maintenance-free infrared heaters are especially flexible for outdoor use. The ETHERMA EXO PRO is also available with an optional integrated radio dimmer, so that the radiant heater can be easily controlled by a three-step (33%/66%/100%) dimming remote control radio. The device is made of high-quality, stainless aluminium and is protected by IP 65-rated water jets, so that nothing stands in the way of year-round outdoor use. The innovative carbon heating tube generates reliable maximum heat output with only a minimal amount of residual light, lasting for 10,000 hours it has an above-average long life. It is enclosed by the reflector, so that heat is strategically projected forward. Colours: white, black; suitable for mounting on the wall and ceiling, protection rating: IP 65, voltage: 230 V, plug line 180 cm, system structure: CE marking

Technical Details

Model	Ceiling-/wall emitter	Voltage	230 230 Volt
Mounting method	Surface mounting	Number of heating levels	3
Power step OFF	No	Min. heating power	660 Watt
Mounting over cradle	No	Max. heating power	2000 Watt
Degree of protection (IP)	IP65	Min. mounting height	1.8 Metre
Colour	White	Max. mounting height	2.5 Metre
Compatible with Apple HomeKit	No	Height	155 Millimetre
Compatible with Google Assistant	No	Width	830 Millimetre
Compatible with Amazon Alexa	No	Depth	250 Millimetre
IFTTT support available	No	RAL-number	9016
