

Features

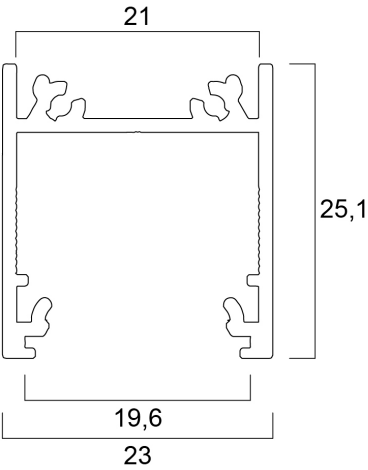

- A semi deep 1000mm length anodised aluminium lighting profile that can be combined with slide (0022614) or click (0022615) opal diffusers with a maximum LED strip width of 20mm. The profile enables the cables to be hidden away and thanks to the good heat transfer capabilities it is possible to use LED sources of higher power. Additional accessories like end caps, profile holders or mounting brackets need to be ordered separately.
