

Insulation entry kit

PRODUCT OVERVIEW

Insulation entry kits are designed to protect cables when passing through the thermal insulation cladding.

The nVent RAYCHEM IEK-20-PI is suited for PI heating cables as well as for power cables.

Insulation entry kits may be used in hazardous and non hazardous areas.

The gland and the grommet included in the kit provide strain relief and environmental sealing to avoid water ingress in the insulation. They contain a stainless steel plate which can be screwed to the cladding. Insulation entry kits can be used for installations on pipes, tanks and vessels etc.

Application

Two-pack insulation entry kit for pipes, tanks and vessels. Usable for all types of PI cold leads as well as all other round cables with an outer diameter in the range of 5 to 13 mm. Kit contains 2 pc.

Kit contents

2 x stainless steel fixing plates
2 x plastic glands (M20) with round hole grommet for power- or cold lead cables
2 x locknuts

PRODUCT SPECIFICATIONS

Dimensions

Plate	60 x 60 mm (22 SWG)
