## Metal base for wireless battery-powered Zigbee® switch, 60 x 71 mm, screw fixing

## 552-72020

Metal base for mounting a wireless battery-powered Zigbee $\mathbb{R}$  switch (552-7201X) in a flush-mounting box, 60 x 71 mm, with screw fixing. The base includes a safety protection cover.

## Technical data

Metal base for wireless battery-powered Zigbee® switch, 60 x 71 mm, screw fixing.

- · Fixing method
  - with screws for simple fixing in a flush-mounting box with grip surfaces
- Centre-to-centre distance
  - Simple and quick assembly of one or more mechanisms by the indication (chalk line, laser, etc.) of the centre of the flush-mounting frame
  - vertical coupling centre-to-centre distance 60 mm by sliding several bases into each other, they lock themselves automatically
  - vertical coupling centre-to-centre distance 71 mm using pre-formed lips at the bottom, by folding the lips downwards over a length of 1 mm, the bases support each other and the centre-to-centre distance is guaranteed.
  - horizontal connection of multiple bases is quick and perfect thanks to the folded-up dovetails on the left and right sides
  - extra robustness due to the folded-up edges on the outside of the base and the continuation into the inside of the base
- Marking: CE
