Installation Notes
Application

This pivoting group marker carrier has been developed for group marking of rail-mount terminal blocks and incorporates many customer requirements:

- Can be used in all multiprofile marker slots for rail-mount terminal blocks 5 mm (0.197 inch) and above or in spacer housings as shown above.
- Pivotable to seven different stable positions, providing the best visual angle in case of difficult mounting conditions
- Two levels for different marking systems
Level a: for marker (4 x 34) mm (see above)
Level b: for 12 WCB-Combi markers (see www.wagocatalog.com)
