

Finishing set with HDMI-to-screw connection, black coated

161-69416

4 year warranty

Finishing set with HDMI-to-screw connection. This product is used when an HDMI cable must be concealed in a wall for the connection of a TV to a set-top box or a computer to a projector. At the back, the socket outlet is provided with a screw connector to which an HDMI cable can be connected of which the connector has been cut off at one side for pulling the cable through a conduit. For use in combination with the universal base with either screw or claw fixing.

Technical data

Finishing set with HDMI-to-screw connection, black coated.

- Function: This product is used when an HDMI cable must be concealed in a wall for the connection of a TV to a set-top box or a computer to a projector. At the back, the finishing set is fitted with a screw connector to which an HDMI cable can be connected of which the connector has been cut off at one side for pulling the cable through a conduit. For use in combination with the universal base with either screw or claw fixing.
