## Current clamp 120 A

## 550-00809

For use with the Niko Home Control measuring modules 550-00801 and 550-00803.

## Technical data

Current clamp 120 A

- for use with the Niko Home Control measuring modules 550-00801 and 550-00803
- expands the measuring range of the measuring modules up to 90 27600 W, 400 mA 120 A per channel
- specify the type of current clamp during programming
- $\bullet$  can be locked/unlocked up to  $\pm$  100 times
- length of the connector cable at the current clamp: 100 cm (may not be shortened or lengthened)
- maximum cable thickness for the current clamp: 4 x 10 mm² or 12 x 2.5 mm² or 20 x 1.5 mm²
- accuracy: IEC62053-21 class 1 (R), class 2 (L)
- minimum insulation resistance: 100  $\mbox{M}\Omega$  (between core and output terminals)
- weight: 75 g
- ambient temperature: -20 50°C
- dimensions: 55 x 29.5 x 31 mm (HxWxD)
- CE marked
- Dimensions (HxWxD): 323 mm
- Marking: CE

4 year warranty
