Round Cable Clips

Description

A wide range of Round Cable Clips are available in Tower's Installation Materials range.

Accommodating an array of cable diameters, Tower Cable Clips are manufactured using hardened steel pins made from high carbon steel, which are then heat treated, then electro zinc plated for consistent and reliable usage. These plastic cable clips can be used for securing cabling to different surfaces such as timber, brick mortar and many others.

Features

- For use in wood, masonry and compressed board.
- Nail manufactured from premium zinc plated hardened steel .
