

## Site Transformers

### Description

These 10kVA MCB protected site supply transformers, incorporating a heavy duty metal casing and stand, are available in both single phase (230V to 110V) and three phase (415V to 110V) models, offering a power distribution solution for construction sites.

### Features

- Heavy duty steel enclosures with carry handles
- Supplied with Type D MCB protected input and output
- Supplied with 4 x 16A outlets and 2 x 32A outlets and 25mm Conduit entries on both sides
- Hard wired input
- 7kVA continuous output
- IP44
- 2-year guarantee

### Range

10000/1PH	10kVA Step Down Single Phase Transformer
10000/3PH	10kVA Step Down Three Phase Transformer

### Technical Specification

Output Voltage	AC110V-130V	
Input Voltage	Single Phase	230V
	Three Phase	415V
Operating Frequency	50/60Hz	
Impedance Voltage	5.6%	
Weight	Single Phase	63kg
	Three Phase	80kg
Power Factor	≥0.93	
Intermittent Rating	10kVA	
Continuous Rating	7kVA	
Construction Materials	Steel	
Optimal Operating Temp	25°C	
IP Rating	IP44
