

KNX - KNX Interface

KNXnet/IP Interface

white , Part No. 90125

Product Information

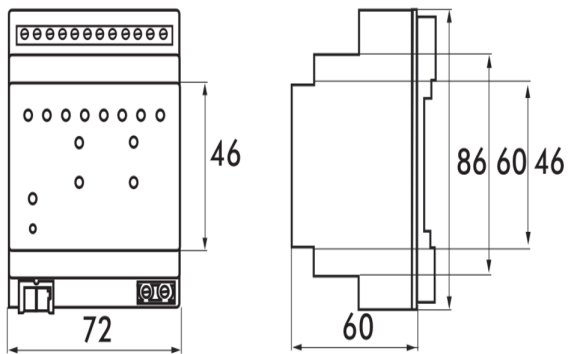

- Cost-efficient programming of a KNX system via LAN
- Programming interfaces from the ETS to the KNX BUS
- Scan function (ETS3 and 4)
- KNXnet/IP-secured tunnel connection
- Plastic housing, 4 widths units (DIN-rail, top hat)
- Connection: 12-30V AC/DC, network and KNX

Technical Data

Voltage:	12 - 30 V AC / DC
Dimensions:	(4 TE) 86 x 72 x 58 mm
Degree / class of protection:	IP20 / Class I
Ambient temperature:	0 °C to +45 °C
Housing:	Plastic LEXAN UL-94-V0
Display elements:	LA-LED: for indicating communication on the Ethernet connection, LK-LED: for indicating Ethernet connection
Manual operation:	Learn keys for switching normal/addressing mode
KNX TP 256:	Yes
Connections and wires:	Bus line: EIB/KNX bus terminal (black/red), Bus terminal yellow/white (power supply),
