

Recessed Media Plate

Description

The Recessed Media Plate is ergonomically designed to allow recessed and concealed installation of a combination of power and multimedia Euro Modules including Data, Television, and Telephone.

Features

- Designed to allow power and AV outlets to be semi-flush to the wall with plugs connected
- Intended for installation behind wall mounted TV's with shallow profile mounting brackets or furniture
- Up to six single modules can be installed in the recessed media plate (see euro module range)
- Supplied with a cover to conceal outlets when not in use (remove cut-out for cables to exit)
- Optional deeper front cover available for concealing outlets when in use and allowing cable to exit
- Front covers have two sizes of marked cut-outs for cable exit
- Dedicated Metal Back Box with divider separating LV & ELV services
