LAMPS (LIGHT BULBS) 409–418
our own collection of high quality LED and halogen lamps

INDEX 419–432
a visual technical index followed by a complete alphabetical index

A DASH OF COLOUR

Whether tickled pink or green with envy, this season is all about having maximum fun with colour.

These stunning mix and match dimpled glass shades come in a variety of tinted tones, including rose, champagne and green and combine effortlessly to brighten up any living space.

FED0522-MIX Federico 5lt Cluster Pendant and **ESB4122-11** Esben Touch Table Lamp P169, 368

5	**COH0735-F + GL13**	Cohen Wall Light	P149

PAINT IT BLACK

There's nothing as timeless as black. Combined with crystal and glass it gives a confident elegance to any room; a perfect compliment to black Crittal doors or fixtures and furniture.

This aesthetic works with grand chandeliers, flush fitting pieces and table lamps to give a range of products that work in many different spaces from kitchens to bedrooms.

NAE0322 Naeva 3lt Pendant P19

JEN4222 Jensen Table Lamp P355

KEEP IT SIMPLE

Simple geometric shapes in block colours are a great statement and go so well in many interiors.

We have added some beautifully curved pendants and striking oversize table lamps with bold silhouettes that add character to a space.

REFINED INDUSTRIAL

An elegant take on the industrial look. Through use of high quality materials, textures and surface finishes combined with decorative ribbed or smoked glass, these designs sing with a rich patina, elevating the fabricated look to a new level.

BOBBLES EVERYWHERE

This year's strongest trend - bobbles - are everywhere! Our designers had a lot fun with this look, using bobbles in shape, as surface texture or just as a subtle embellishment. Our ceramic bobble lamps are available in a variety of fun colours, not to mention white!

CLASSIC PENDANTS & WALL LIGHTS

An attractive pendant system with a vintage feel in either antique chrome or natural brass. Featuring a standard SES size fitment.

Extremely versatile. Choose from a number of different glass and metal spun shades, or add any SES fabric shade to change the look of your fitting at any point.

This system features a braided fabric cable on the pendants and a metal pull chain switch on the wall lamps.

LAMPS

Revised Energy Rating - the same performance, a different grading scale

For clearer understanding of relative energy performance and to encourage increased performance and efficiency, a new scale has been introduced by the UK government. The existing ERP energy rating for lamps (light bulbs) is graded from the most energy efficient (A++) down to least (E). The new scale is graded from A down to G. Old A+ products now equate to the lowest G band, and the previous top grade A++ now equate to anything from D through to F.

Despite the apparent lower rating for our current lamps, their performance and efficiency is unchanged. Meanwhile, we are rising to the challenge of developing even more efficient lamps that will achieve the highest grades on the new, more demanding scale.

Please note that existing stock with the older label can be sold until **April 2023**. This means that both styles of label will be in the market until then.

old style new style

Selected halogen lamps (bulbs) are still available until 1st September 2023

The following halogen lamps can be placed on the market until **1st September 2023** and can be legally sold after that date until stocks are exhausted:

- **12v halogen G4 lamps**
- This includes our **BULG410**

- **240v halogen G9 lamps**
- This includes our **BULG920** and **BULG933**

- **R7S linear halogen below 2700lm** (approximately 140w equivalent)
- This includes our **BULR7S80** and **BULR7S120**

Understanding Lamp Specifications

Lumens & Equivalent Wattage

The higher the lumens, the brighter the lamp. The equivalent wattage is a comparison, for reference only, to a traditional incandescent lamp.

Energy Rating

old style new style

A grading of how efficient the lamp is at converting energy. The Revised Energy Rating scale is explained above.

Colour Temperature

Ranging from 2200k (kelvin) to 5000k, the colour temperature shows how cool (blue) or warm (red/orange) the light from a lamp is. Cooler colours are crisper; warmer colours are more relaxing. 2700k is most similar in colour tone to the traditional incandescent lamp.

Dimmable

Lamps with this symbol are dimmable; for wall and ceiling lights you must use an LED-compatible dimmer, such as a Varilight V-Pro.

Introducing our new energy efficient **TOUCH** **LED** lamps.

A range of energy efficient LED lamps developed to work with our 3-stage and on-off touch lamps.

Each lamp has undergone testing with our range of touch lamps to ensure compatibility. The technology is specific to touch switches and as such these touch LED lamps cannot be used with standard dimmers.

E27 MICRO FILAMENT LED

Our premium micro filament LED lamps feature a clear light guide column with a laser-etched graphic filament. When lit, the appearance is similar to original fine filament vintage lamps, giving a very warm decorative glow. The outer glass envelope of clear borosilicate glass has a highly reflective coating that repels dust. Our micro filament range is available in medium and large globes, as well as the classic Edison shape. (see across)
