**Standards** BS 5733

|                               |                                                                                                                                     |
|-------------------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| <b>Additional Information</b> | For cleaning / polishing of products, use only a soft, dry, clean cloth.                                                            |
|                               | Ensure that the mains supply is isolated before commencing installation and refer to the circuit diagram with the relevant product. |
|                               | Bare earth cables must always be covered with appropriate sleeving and wired to the earth terminal.                                 |
