

Product Specifications

HypaClean Antibacterial Handwash, 500ml

- 500ml Antibacterial Handwash with Aloe Vera
- Contains bactericide to leave hands hygienically clean
- Contains moisturisers to help condition and enrich skin
- Specifically formulated to protect hands from germs and odours
- Leaves hands protected, smooth and soft
- Maintains skin's pH balance

The HypaClean Antibacterial Handwash has been specifically formulated to protect against germs and odours. It contains bactericide to leave hands hygienically clean and Aloe Vera to help condition and enrich skin, leaving hands feel protected, soft and smooth. The handwash is ideal to be used in food handling environments and any sort of workplace that needs the employees to have constant clean hands. The moisturisers it contains help those who need to wash their hands quite often as it acts like a protective barrier every time the hands come in contact with the antibacterial soap. HypaClean Antibacterial Handwash comes in 2 sizes, 500ml and the cost effective 5litre refill. A wall mounting bracket can be purchased separately. **The HypaClean Antibacterial Handwash helps you comply with [Government Regulations on Covid-19 practices](#).**
