

ActiV Diode Base

Part No. C4408D

Overview

- Compatible with C-TEC's entire range of ActiV fire detectors.
- Third-party certified to the relevant parts of EN54 in conjunction with our ActiV detectors.
- Easy to fit with lots of working space.
- Can be ceiling mounted in any orientation due to the true 360° degree viewing angle of the LED indicator strips on all ActiV detectors.
- Integrated detector/base locking mechanism, head removal tool and ID tag.
- Simple 'click and twist' design.
- Remote LED terminals for the optional connection to a BF318 Remote indicator.
- C4408 non-diode and C4408R relay bases also available.

More Information

Technical Specifications

Approvals/certifications Certified to the relevant parts of EN54 by Intertek as part of our ActiV fire detector certifications.

Supply wiring 2-wire monitored, polarity sensitive.

(1) +V In; (2) +V Out; (3) Remote LED +V; (4) 0V; (5) 0V; (6) Screen; (7) Screen. Schottky diode connected between Connections

 $1\ \&\ 2.$ Terminals can accept up to 2.5mm fire rated cable.

Product dimensions (mm) 102.2mm diameter x 20.5mm deep.
