- Surface boxes have multiple knock-outs and earth terminal fitted as standard
- Manufactured to BS 5733

- Spacers provide greater clearance for installation wiring where shallow mounting boxes are used, an alternative to fitting a deeper box

Cord Grip Spacer Explanation

- For use with non flex out 13 Amp Fused Connection Units and 20 Amp Switches
- Cable is inserted through the aperture in the spacer and connected to the terminals. It is then clamped by the cord grip prior to mounting the accessory to the wall box
- Separate spacer allows for stock flexibility
