

# Criss Cross PVC™ CSP156

## Simply Gripping

**Criss Cross PVC™ from Polyco is a seamless knitted general use glove with a PVC criss-cross coating providing excellent grip and tear resistance.**

Over the years, Polyco has consistently developed its product range to meet the demands of an ever changing working environment. There are some gloves however that have remained unchanged and are still popular to this day. One of these is the Criss Cross PVC™ - its seamless knitted construction is close fitting, breathable and adapts to the hand's movement offering maximum flexibility and allowing for continuous wear without irritation. The highly tensile clear PVC criss-cross coating optimises surface performance and contributes to the glove's high tear resistance. Covering the entire hand, it allows for the glove to be worn on either hand considerably extending the life of the glove. The elasticated knit wrist ensures a secure fit and keeps the hands free of dirt and dust. So in a nutshell, the Criss Cross PVC™ is an extremely comfortable glove that offers good value for money and provides secure handling in order to get the job done safely. Available in orange and white.
