

FILLS FASTER, DEEPER AND SMOOTHER

RONSEAL SMOOTH FINISH FILLERS are manufactured utilising fine fillers and resins to provide a smoother consistency for easy application. Once applied, these smooth fillers will dry to a uniform finish that is easier to sand, producing a smooth surface ready for decorating.

RONSEAL 5 MINUTE MULTI PURPOSE FILLER is the next generation in multi purpose filling for around the home. It's touch dry in as little as 5 minutes and is supremely easy to work with leaving the smoothest possible finish. When dry its sag resistant formula is able to fill large repairs up to 70mm deep.

RONSEAL'S REDUCED WEIGHT FORMULA is well known throughout the trade as the ultimate multi purpose filler. Utilising advanced glass sphere technology, it fills quicker, smoother and deeper than traditional fillers and its light weight construction ensures it leaves almost no residue around the hole for a 'clean finish'. It's so light it can even be used to fill ceilings.

Usage Areas	Multi purpose repairs to either plaster, stone, concrete or wood.
Gap Size	Fills gaps up to 70mm deep.
Dry Time	After application, surface is ready to decorate in 15 minutes.*
Post Repair	Will not accept drills, screws or nails.
Clean Up	Remove excess product from tools immediately after use using a damp cloth.

PREPARATION Ensure surface and cracks are clean, dry and free from dust, grease and other contamination. Touch in nails and screw heads with a solvent based paint.

APPLICATION **1** Pack the filler well into area of repair, ensuring the filler is slightly proud of the surface being filled. **2** For deeper repairs above 70mm, build the filler up in layers, ensuring the filler has dried between applications. **3** Smooth over filler with the Ronseal applicator or a wet knife prior to drying. **4** If necessary, sand to a smooth finish once dried hard. Avoid the inhalation of dust and wear a suitable face mask when sanding.

* Ready to decorate in 15 minutes depending on size and depth of hole. Cold and damp conditions may extend dry time.

CLEAN UP To prevent product from drying out, ensure the plastic film is pushed firmly onto the surface of the filler and the lid is tightly closed. Tools should be washed in warm water immediately after use. Remove excess product from tools prior to cleaning. Store away from areas of extreme temperatures and protect from frost.

RONSEAL SMOOTH FINISH 5 MINUTE MULTI PURPOSE FILLER

Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand. Contains 1,2-benzisothiazol-3(2H)-one. May produce an allergic reaction.

Contains methylisothiazolinone
