

range introduction

Premier is a modern integrated trunking system which provides the means to distribute power, data and telecom services around buildings.

A wide range of snap fit mouldings, including reducers, make it easy to run continuous lengths of trunking as cable feeders and, where required, to provide dado trunking with the necessary power, data and telecom outlets.

Premier trunking is also compliant with Cat 5e and 6 data cable installation, and the MK Aspect and Logic Plus accessory ranges complement the style and finish of Premier Trunking.

features and benefits

Simple, clean lines

Stylish and unobtrusive finish

Wide range of integrated components

Maximises versatility in application

Clip-on covers provide continuous access for wiring modifications

Easy to assemble and install

Data corners provide 32mm radius compatible with Cat 5e and Cat 6 data cables

Enables data cables to perform to their maximum capabilities (NCT1050 only)

Tapered joints provide complete protection at junctions masking cut ends

Uniform and neat finish to any installation

Made from 100% PVCu

Premier is both robust and easily workable on site

All extrusions manufactured from 90% recycled material*

* Based on 2008 consumption.
