

# Safe Isolation and Voltage Indication

## Lock-out Kit

The LOKKIT1 is a comprehensive lock out kit to be used as part of a safe isolation procedure. The set of locking devices is compatible with all distribution boards. Additional individual pieces are available to order separately.

The kit comprises of 7 different locking devices for simple fitting to MCBS, RCBOs and fuse holders. There is a plastic body padlock with a 6mm hardened steel shackle for securing the locking devices and a steel safety hasp which allows multiple padlocks to be used. The kit is completed with 5 warning tags, a marker pen and a durable case with space for storing additional accessories.

**LOKKIT1** includes: 7 locking devices, 5 warning tags, padlock, hasp, marker and case.

Essential for compliance with Electricity at Work Regulations for safe working.

## Warning Tags

These packs of 10 replacement warning tags allow you to use a new, dated and named tag every time locking off is required. 80 x 140mm.

## Padlock

Plastic body padlock with 6mm hardened steel shackle. Designed for use with Martindale lock out devices and compatible with most other safety lock out products. Padlock body width - 38mm. Vertical shackle clearance - 38mm. Also available in yellow and blue.

**PAD10R (red)**  
**PAD10B (blue)**  
**PAD10Y (yellow)**
