

Product Specifications

HypaCool Instant Cold Pack, Standard

- Single use instant cold pack
- Ideal for rapid response to acute injuries during sports, travel and outdoor activities
- Quick, easy and mess-free method of providing cryotherapy
- Activates when squeezed - no need to cool in the freezer
- Standard size is 14cm x 23cm

The **HypaCool Instant Cold Pack** provides instant pain relief quickly and easily to sprain and strains during the acute stages of injury, when treatment is most important. The cold packs are single-use and are easily disposed of in ordinary household or business waste. The cold pack is ideal for emergency pitch-side use or relief on the trail. The packs are activated with a chemical reaction when squeezed and do not require pre-cooling in a freezer, meaning they're ready whenever and wherever you need them. Also available in a [compact size](#) [PQ2281].
