

Product Specifications

TurtleSkin CP Insider 330

- Puncture protection work gloves
- Level 4 cut protection (withstands 1500 g to 2199 g of cutting load) and level 2 (withstands up to 59 newtons of pressure) puncture resistance for the palms and fingertips
- Constructed from ultra-thin, machine washable protective fabric
- Suitable for demanding applications such as waste management and recycling
- Available in four sizes

The **TurtleSkin CP Insider 330** are puncture and cut resistant work gloves, designed for demanding applications such as waste management and recycling, glass and metal handling, janitorial work and timber handling. The ultra-thin gloves provide dexterity alongside level 2 puncture resistance (withstands up to 59 newtons of pressure) and level 4 cut protection (withstands 1500 g to 2199 g of cutting load). They are machine washable and thin enough to be used as a liner for other gloves, including disposable gloves.
