Application Guidelines

Applications Notes

1. Before applying the film ensure the surface is clean & dry.
2. Customers must fully evaluate the product by testing prior to using. Test the film for 48 hours on a small hidden area of window glass to ensure compatibility with the glass and to ensure there is no adhesive transfer on the window glass.
3. To apply the roll, place it on the glass facing the direction required to cover. Push the roll forward a small distance and press down firmly to ensure the film has adhered to the glass.
4. Continue to unroll, pressing down and smoothing out any air pockets, checking the film is rolled straight.

Limitations

1. **Do not leave the film in place for longer than 30days.**
2. For use on **Window Glass Only.**
3. Do not use on Hard Surface or Carpet Surface.
4. Film is one time use only. Remove and dispose of in accordance with local environmental regulations.
5. **Do not apply to a damp surface or steamed window,** which will prevent any moisture from evaporating and may affect the performance of the product.
6. If subjected to extreme conditions or high temperature, direct sunlight or outdoor exposure, it is recommended you replace the film weekly.
7. The product should be stored at room temperature no longer than 6months.
8. Check for adhesive transfer on a regular basis.
