

Bubble Wrap

Bubble wrap is possibly the most versatile of all packaging products. Cost-effective and lightweight, bubble is strong, shock resistant and user friendly, offering superb protection, cushioning or void fill. We offer a comprehensive range of standard and large bubble sizes (see below) with widths from 150mm to 2400mm.

Specialist Bubble wraps

- Anti-Static (Pink)
- Heavy Duty
- Flame Retardant
- Double Laminated
- Coloured Bubble
- UVI Resistant
- Perforated
- Bubble Sheets
- Self Adhesive Bubble
- Foam / Bubble Laminate
- Easi-Tear Bubble

Retail Packed Bubble (Mini Rolls)

Retail packs on display

Bubble can be rolled into mini rolls for smaller users, or for resale in retail environments (such as self storage). We offer two stock, prepacked sizes:

Code	Size	Type	Quantity
SDB8	500mm x 10mtr	Standard Bubble	40 per box
SDB9	750mm x 25mtr	Standard Bubble	4 per pack

Other sizes are available to order.

Sanflex Insulation

Bubble Insulation is available in 3 forms

2B2 – a double layer of polyethylene bubble sheet, faced on each side with coated aluminium foil.

2B1 – a single layer of polyethylene bubble sheet, faced on each side with coated aluminium foil.

1B1 – a single layer of polyethylene bubble sheet, faced on one side with coated aluminium foil.

Agrément Certificate – Available on request.
