"DAVE SAYS" QUALITY MAKES THE DIFFERENCE

FLEXIBLE HANDLES

Any claims for replacement of flexible handles must be returned WITH THE TOOL to Draper Tools for inspection, prior to replacement. Test figures show 98% are broken by abuse, and on test 99.9% of the returned flexible handles exceed the BS test by 3 times. ALSO, these products must not be used with an extension bar of any length. If used in this way it can cause undue stress on the joint between the extension bar and flexible handle.
