

## 250mm HALF ROUND FILE

- With comfort grip handle • Fully heat treated carbon steel blade • Second cut - for general removal of ferrous/non-ferrous metal • Approx length: 250mm (10")

Stock Code: E1355

## 250mm FLAT FILE

- With comfort grip handle • Fully heat treated carbon steel blade • Second cut - for general removal of ferrous/non-ferrous metal • Approx length: 250mm (10")

Stock Code: E1356

## 2pc 150mm FILE SET

- Includes flat and half round files • Heat treated carbon steel blades • With comfort grip handles • Suitable for most metalworking tasks • Approx length: 150mm (6")

Stock Code: E1358

## 3pc ENGINEERS FILE SET

- 3 assorted blade profiles including flat, round and half round files • With comfortable rubber handles with hanging holes • 20cm blade lengths

Stock Code: E1359

## 5pc ENGINEERS FILE SET

- Set includes half round, flat, square, triangle and round files • With comfortable rubber handles with hanging holes • Approx length 8"(200mm)

Stock Code: E1360

## DIAMOND SHARPENING FILE

- Blade is flat on one side and half round on the other • Two sided file with 240 and 400 grades • Ideal for sharpening a wide variety of items such as scissors, knives and garden tools • Comfortable soft grip • Approx size: 10" (250mm)

Stock Code: E2556

## 8" SHARPENING STONE AND BOX SET

- Combination aluminium oxide sharpening stone • Two sided stone with fine and medium grits (120 and 240) • Supplied with handy plastic storage case

Stock Code: E2010

## 8" COMBINATION STONE

- Two sided stone with coarse and medium grits (120 and 240 grits) • Can be used for sharpening chisel blades, knives, scissor blades • Approx size: 200 x 50 x 25mm

Stock Code: E2000

## CIGAR STONE

- Approx 12" (300mm) long silicone carbide cigar shaped sharpening stone • Ideal for the sharpening of all types of blades, knives hand and garden tools

Stock Code: E2300

## 6" FINE DIAMOND STONE

- Quick, easy and effortless sharpening • No oil lubrication needed, only requires water • Extremely durable • Approx size: 6" (150mm) • Fine grade (400 grit) used to refine the cutting edge of plane irons, chisels and can be used to hone TCT router cutters

Stock Code: E2570

## 6" COARSE DIAMOND STONE

- Quick, easy and effortless sharpening • No oil lubrication needed, only requires water • Extremely durable • Approx size: 6" (150mm) • Coarse grade (240 grit) used for sharpening plane irons and chisels

Stock Code: E2580

## MINI PLUS MITRE BLOCK

- Made from strong recycled plastic with 45 and 90 degree guides on edges • With countersink holes for bench fixing • 35 x 30mm (depth & breadth)

Stock Code: M0010

## MIDI MITRE BLOCK

- Made from strong recycled plastic with 45 and 90 degree guides on edges • With countersink holes for bench fixing • 55 x 55mm (depth & breadth)

Stock Code: M0020

## MAXI MITRE BLOCK

- Made from strong recycled plastic with 45 and 90 degree guides on edges • With countersink holes for bench fixing • 100 x 100mm (depth & breadth)

Stock Code: M0030

## 18" HAND SAW

- Hardened and tempered high grade steel for flexibility and durability • Precision setting sharp teeth for faster sawing • 7 TPI • Plastic two-tone handle

Stock Code: M0300

## 12" TENON SAW

- High quality alloy steel blade • Steel back for precise cutting • 10 TPI (teeth per inch) hard point • With two tone comfort grip

Stock Code: M0350

## 22" HARDPOINT SAW

- High quality alloy steel blade • 8 TPI (teeth per inch) • 90 and 45 degree angles • Comfortable grip handle • Approx size: 22" (550mm)

Stock Code: M0375

## 22" HARDPOINT SAW (NON-STICK COATED BLADE)

- Sharp hardpoint teeth for effective cut • Non-stick coated blade for ease of use • 7 TPI (teeth per inch) for general cutting • 90 and 45 degree angles • Comfortable grip handle • Supplied with blade guard

Stock Code: M0378

## 14" TOOLBOX SAW

- 65MN alloy steel polished blade • 7 TPI • Induction hardened teeth • Two tone easy grip handle • Ideal for most D.I.Y. tasks • Sharp teeth for wood cutting • Approx size: 14" (350mm)

Stock Code: M0510

## 30cm FLOORBOARD SAW

- EASY TO START CUTTING: The curved and toothed end makes starting cuts easier • DURABLE: Specifically designed for cutting flooring, this round-nosed floorboard saw has a tough, double ground hard point blade • 9 TPI: The floorboard cutter has 9 teeth per inch (TPI) for powerful cutting • KIT CONTENTS: 1 x 30cm floorboard saw

Stock Code: M0505

## 12" HACKSAW & 3 BLADES

- Flat steel alloy frame supplied with 3 x 12" (300mm) carbon steel hacksaw blades • With comfortable plastic grip handle • Ideal saw for D.I.Y. use

Stock Code: M0650

## 12" ADJUSTABLE HACKSAW

- Adjustable hacksaw frame with lightweight aluminium handle • Supplied with spare blade • Approx size: 12"(300mm) • Ideal for D.I.Y. use

Stock Code: M0700

## HI TENSION HACKSAW

- Lightweight aluminium alloy construction • Square handle for sure grip • Blade adjustable to 55 degrees for special cutting jobs • Chrome coated handle and frame • Accommodates 12" (300mm) blades

Stock Code: M0750
