

PRO-CAPS RE BAR PROTECTION CAPS

MAKE YOUR SITE A SAFE ONE!

Injury on construction sites caused by exposed reinforcing bars is a serious problem for contractors.

Pro-Caps are used to cover the end of exposed reinforcing bars during construction work, reducing the risks and avoiding serious injury to site personnel.

Pro-Caps are available in two sizes to cover the full range of reinforcing bars from 6mm to 32mm diameter.

Pro-Caps are supplied in Bright Yellow colour to give high visibility and warn of the danger on site.

PRO-CAP Small - Fits bar size 6mm to 18mm diameter.
Pack Quantity 250.

PRO-CAP Large - Fits bar size 16mm to 32mm diameter.
Pack Quantity 250.
