

Perfect for.....
A durable gripping surface for reliable and consistent performance

- A Drop forged Chrome Vanadium steel jaws** provide excellent tool durability; this ensures the gripping surface retains its profile in the toughest of conditions for reliable and consistent performance
- B Cutting edges are induction hardened for additional toughness**, resulting in edges which stay sharper for longer
- C Ergonomically designed soft-grip handles** provide a comfortable and secure grip for fatigue-free use
- D 1000V VDE rated handles** feature anti-slip guards for increased safety

1000V VDE Combination Pliers can be used to cut:

- Soft wire
- Medium wire
- Hard wire
- Piano wire

1000V VDE Combination Pliers are ideal for:

- Gripping, twisting & Cutting cables

Long Nose Pliers are ideal for access and more delicate gripping and cutting work

DID YOU KNOW?

Our VDE Combination Pliers are Manufactured to ISO 5746 & the Long Nose Pliers to ISO 5745

TECH TIP!

A drop of oil applied occasionally to the joint will maintain easy operation
